0

## New Program Report

### Internship or other Capstone Experience:

Clinical Experience I, II and III will involve patient care with MU athletes, local high school athletes and local small college athletes will be supervised by a licensed athletic trainer. Clinical Experience IV and V will be more immersive experience a college, high school, physician office, military or any other setting of the student's choice. While in the immersive experience, the student will collect outcomes data that will be analyzed and written up during the capstone course.

### Assurances

I certify that the program is clearly within the institution's CBHE-approved mission. The proposed new program must be consistent with the institutional mission, as well as the principal planning priorities of the public institution, as set forth in the public institution's approved plan or plan update.

I certify that the program will be offered within the proposing Institution's main campus, CBHE-approved service region or CBHE-approved off-site location.

I certify that the program will not unnecessarily duplicate an existing program within the geographically applicable area.

I certify that the program will build upon existing programs and faculty expertise.

I certify that the program can be launched with minimal expense and falls within the institution's current operating budget.

I certify that the institution has conducted research on the feasibility of the proposal and it is likely the program will be successful. Institutions' decision to implement a program shall be based upon demand and/or need for the program in terms of meeting present and future needs of the locale, state, and nation based upon societal needs, and/or student needs.
