New Program Report

Special Admissions Procedure or Student Qualifications required:

n/a

Specific Population Characteristics to be served:

n/a

Faculty Characteristics

Special Requirements for Assignment of Teaching for this Degree/Certificate:

Faculty, full-time and adjunct, with meet HLC standards; earned terminal degree in theatre or closely related discipline, minimum of 18 graduate hours in-discipline

Estimate Percentage of Credit Hours that will be assigned to full time faculty:

Full-time faculty=95%; Adjunct faculty=5%

Expectations for professional activities, special student contact, teaching/learning innovation:

Standard faculty performance in the areas of teaching, service, and scholarship

Student Enrollment Projections Year One-Five

Year 1	Full Time: 30	Part Time: 0	
Year 2	Full Time: 45	Part Time: 0	
Year 3	Full Time: 60	Part Time: 0	Number of Graduates: 15
Year 4	Full Time: 75	Part Time: 0	
Year 5	Full Time: 90	Part Time: 0	Number of Graduates: 23

Percentage Statement:

n/a

Program Accreditation

Institutional Plans for Accreditation:

Theatre Department is pursuing accreditation with the National Association of Schools of Theatre (NAST)

25

Internship or other Capstone Experience:

Senior Project I / Senior Project II

Assurances

I certify that the program is clearly within the institution's CBHE-approved mission. The proposed new program must be consistent with the institutional mission, as well as the principal planning priorities of the public institution, as set forth in the public institution's approved plan or plan update.

I certify that the program will be offered within the proposing institution's main campus, CBHE-approved service region or CBHE-approved off-site location.

I certify that the program will not unnecessarily duplicate an existing program within the geographically applicable area.

I certify that the program will build upon existing programs and faculty expertise.

I certify that the program can be launched with minimal expense and falls within the institution's current operating budget.

I certify that the institution has conducted research on the feasibility of the proposal and it is likely the program will be successful. Institutions' decision to implement a program shall be based upon demand and/or need for the program in terms of meeting present and future needs of the locale, state, and nation based upon societal needs, and/or student needs.

Report for a NEW MAJOR or CERTIFICATE

1. School: Arts and Sciences Department: Theatre Date: 10/3/19
2. Title: Bachelor of Science in Theatre Production Course #: N/A CIP Code:
3. New Major or Certificate: New Major
4. Date first offered: August 2020

Attach information for items 5-12 as needed.

5. **Describe the need for this new major including evidence of student demand for the program and market or societal need for the skills being developed.**

The Department of Theatre has historically served three different types of students: 1) students who want to teach Theatre in the public schools, 2) students who want to pursue a Theatre performance degree and/or go on to graduate school in a Theatre performance-related field, and 3) students who want to pursue a Theatre Technical degree and/or go on to graduate school in a Theatre Technical -related field. The current BA in Theatre degree serves only students in group #1 and provides an overview of Theatre, regardless of their chosen direction, to the other two groups. However, students in these groups differ vastly from each other in terms of ability and future goals. The demands of a performance career or future graduate studies in performance are much higher and require a much more comprehensive educational experience than what is currently offered in the general BA in Theatre degree.

The Department of Theatre is currently seeking accreditation with the National Association of Schools of Theatre (NAST). This proposal (along with the accompanying revamp of the BA in Theatre Production, BA in Theatre Performance, BS in Theatre Performance, and the creation of a BFA degree) will allow us to better serve these 3 distinct types of students the Department of Theatre has traditionally taught. It will also allow the department to better target recruiting efforts to these separate types of theatre students and diversify our offerings to better compete with similarly sized institutions in the region, and will help us attain NAST certification. Making us one of only six schools in the state with NAST accreditation.

6. **Is the major interdisciplinary? No**
7. **Are there similar programs offered at other Missouri institutions? Yes**
If so, how is this program unique or different from existing programs?

Many Missouri Institutions offer a Bachelor of Theatre in Performance. Many of these institutions are sustainably larger than MSSU's Department of Theatre. This program would not necessarily compete head-to-head with the larger programs as total Theatre funding, number of full-time faculty, and larger student populations creates a vastly different learning environment than what MSSU can offer. While the degree is titled the same, and both meet the same NAST standards, students will have a choice of the type of environment in which they would like to study. Many Missouri smaller institutions offer programs in Theatre which are tailored to a BA or BS in performance or a BA or BS in technical production. These smaller institutions' may not always offer a BA and a BS, but will offer one or the other, or will offer both a BA and a BS in theatre without the distinction between performance and production. (See list below)

Changing our degree offerings here at MSSU, our theatre program will be able to compete with all state universities and colleges, and allow more flexibility in our offerings for our students.

* Missouri State *

BA/BS Theatre
BFA in Theatre: acting
BFA in Theatre: Design, Technology and Stage Management

* UMKC *

8. Describe the curriculum requirements for the major.

NAST standards dictate that degrees in performance are considered professional degrees and require at least 30%-45% of the content of the degree (based upon 120 hour bachelor's degree) to be in theatre-related coursework. This proposal includes a core theatre area of 43% theatre content with the remaining 57% in the General Education area.

The curriculum is designed to teach the entire performer with rigorous coursework in theatre theory, theatre history, individual performance, and literature. These courses meet NAST standards for undergraduate performance degrees.

9. What are the student learning objectives for the program?

Students will be able to perform technical work in each area of production at appropriate levels for entry into graduate theatre study.

Students will be able to analyze and synthesize production work in ways that helps improve performance standards.

Students will be able to recognize, classify, and interpret a common body of theatre literature and individual repertoire.

Students will gain a common knowledge of the performance areas of theatre.

Students will demonstrate that public performance is a means for engaging a community and contribute to general cultural awareness and arts culture.

10. How will the objectives be assessed?

Technical work and performance standards will be assessed every semester in individual and group projects. Technique and designs at the senior level will be capstone experiences that focus on each student's individual technical skills.

The theatre production courses will address analyzing and synthesizing techniques to inform performance practices and achieve the overall design concept.

Students will be given an overview of the performance elements involved with theatre so as to be able communicate in industry specific language, and understand how their designs integrate with performers and performances.

The theatre history course sequence and literature courses will assess the common body of theatre literature and individual repertoire.

Feedback to the crew and designers is given after each performance.

11. If this major is approved –

a. Will additional staff be needed? Yes , No . If yes, describe.

b. Will additional space, equipment, special library materials, or any major expense be involved? Yes , No . If yes, specify program needs.

12. Include any additional information about the program that would be helpful.

The separation of the degrees will assist students in graduation and provide more options for students looking to attend MSSU. This will allow us to compete with other schools and universities.

Attached is the entire curriculum listing.
