Mode of Delivery

Current Mode of Delivery

Classroom

Student Preparation

Special Admissions Procedure or Student Qualifications required:

The student must have been admitted to the nursing program at William Jewell College and must have completed a minimum of 18 credit hours toward the nursing major.

DEPARTMENT OF
HIGHER EDUCATION &
WORKFORCE DEVELOPMENT

New Program Report

Specific Population Characteristics to be served:

Courses within the nursing program have strict requirements about the quality of work that is considered to be passing, and the program itself allows very limited opportunities for repeating work before a student is dismissed from the department. Students who are dismissed from nursing later in the program face a difficult situation in which considerable time, effort, and money have gone into earning credits that may be of limited use to them in most other majors. It is for the benefit of these students that we have created an alternative degree program.

These students are allowed to add to their existing background in healthcare numerous courses in business-related fields so that they are prepared for careers in the management of healthcare.

Faculty Characteristics

Special Requirements for Assignment of Teaching for this Degree/Certificate:

Instructors will be appropriately credentialed in their areas of teaching, as certified by department chairs.

Estimate Percentage of Credit Hours that will be assigned to full time faculty:

100% full-time faculty

Expectations for professional activities, special student contact, teaching/learning innovation:

Instructors are reviewed annually by department chairs and periodically by a faculty committee for appropriate professional activities.

Student Enrollment Projections Year One-Five

Assurances

I certify that the program will not unnecessarily duplicate an existing program of another Missouri institution in accordance with 6 CSR 10-4.010, subsection (9)(C) Submission of Academic Information, Data and New Programs.

I certify that the program will build upon existing programs and faculty expertise.

I certify that the institution has conducted research on the feasibility of the proposal and it is likely the program will be successful. Institutions' decision to implement a program shall be based upon demand and/or need for the program in terms of meeting present and future needs of the locale, state, and nation based upon societal needs, and/or student needs.

Major HEALTHCARE MANAGEMENT

Regulations that are outlined in the Nursing Student Handbook specify the quality of work within courses that is considered to be acceptable and also the limited opportunities for repeating required courses before a student is dismissed from the nursing program.

Students who are dismissed from the nursing program at a relatively early stage may be able to use their credits in nursing as electives as they seek a different major at William Jewell. However, students who are dismissed later in the nursing program face a difficult situation in which considerable investment has gone into earning credits that cannot be used toward a major in nursing.

Under the following conditions, a student who is dismissed from the nursing program will be eligible to attempt to earn an alternative degree from William Jewell:

- The student has earned a minimum of 30 hours in residence at Jewell.
- The student is on a traditional curricular track (rather than an accelerated track) in nursing.
- The student has completed successfully (with grades of C- or better) a minimum of 18 hours that can be counted toward requirements for the major in NUR.
- At the end of the term during which the student was dismissed from nursing, the student will have been on a track that puts them within one year of completing the BS degree with a major in nursing.
- The student has expressed interest in pursuing this alternative degree, has been recommended for the alternative degree by the chairs of the Department of Nursing and the Department of Business & Leadership, and has received approval for the alternative degree program from the Provost.

The alternative degree will be a Bachelor of Science degree. The associated major in Healthcare Management will have the requirements listed below.

Required Courses

18 hours in NUR courses required in the NUR major

BUS 202	Principles of Management (4)
BUS 301	Human Resource Management (4)
IHC 100	Healthcare Leadership (2)
IHC 102	Healthcare and its Role in Society (2)
IHC 211	Fundamentals of Healthcare Finance (4)
IHC 212	Principles of Healthcare Economics (4)
IHC 302	Healthcare Management (4)

And a minimum of 6 hours from the following:

BUS 305	Marketing Principles (4)
BUS 402	Seminar: The Theory and Practice of Business (2)

Additional hours required in the NUR major

A student in this alternative degree program will be exempt from a course in the CTI Level-2 science category. The student will not be eligible for a minor in integrated healthcare management. The student cannot have a second major.

This program in Integrated Healthcare is currently available only to students who have been dismissed for academic reasons from the nursing program.
