Academic Program Actions Approved through Routine and Staff Review

Coordinating Board for Higher Education
March 6, 2019

BACKGROUND

Section 173.005.2(1), RSMo, authorizes the Coordinating Board for Higher Education to approve new degree programs to be offered by the state institutions of higher education. The Coordinating Board in June 2017 delegated to the commissioner of higher education the authority to approve proposals for new academic programs that meet the criteria for Routine review. Routine review applies to the proposals that are clearly within an institution's CBHE-approved mission and service region, do not unnecessarily duplicate an existing program in the geographically applicable area, will be offered at the institution's main campus or at a CBHE-approved off-site location, will build on existing programs and faculty expertise, and can be launched with minimal expense and within an institution's current operating budget. Staff review applies to minor program changes to existing academic programs such as deletion, inactivation, change of title or CIP code, or change of address notification.

This agenda item reports all Routine and Staff reviews by the Missouri Department of Higher Education staff from November 2018 – January 2019, and are submitted to the Coordinating Board for Higher Education for information.

CURRENT STATUS

Table 1 summarizes proposed program actions submitted to the CBHE by public institutions, and Table 2 summarizes proposed program actions submitted by independent institutions. Table 3 lists off-site location actions. An itemized list of program actions is included in the attachment to this agenda item.

Comments

Maryville University received comments on a proposed Bachelor of Fine Arts in Digital Media to be offered online. The comments addressed the difficulty of understanding visual media when only viewed digitally, the lack of portfolio review for entrance to the program, the number of proposed majors, and the difficulty of converting some courses to online delivery. The program remains under review.
