Academic Program Actions Approved through Routine and Staff Review

Coordinating Board for Higher Education
September 12, 2018

BACKGROUND

Section 173.005.2(1), RSMo, authorizes the Coordinating Board for Higher Education to approve new degree programs to be offered by the state institutions of higher education. The Coordinating Board in June 2017 delegated to the commissioner of higher education the authority to approve proposals for new academic programs that meet the criteria for Routine review. Routine review applies to the proposals that are clearly within an institution’s CBHE-approved mission and service region, do not unnecessarily duplicate an existing program in the geographically applicable area, will be offered at the institution’s main campus or at a CBHE-approved off-site location, will build on existing programs and faculty expertise, and can be launched with minimal expense and within an institution’s current operating budget. Staff review applies to minor program changes to existing academic programs such as deletion, inactivation, change of title or CIP code, or change of address notification.

This agenda item reports all Routine and Staff reviews by the Missouri Department of Higher Education staff from May 1 through July 31, 2018, and are submitted to the Coordinating Board for Higher Education for information.

CURRENT STATUS

Table 1 summarizes proposed program actions submitted to the CBHE by public institutions, and Table 2 summarizes proposed program actions submitted by independent institutions. Table 3 summarizes programs submitted by independent institutions to reconcile their programs with the MDHE program inventory. An itemized list of program actions is included in the attachment to this agenda item.

Academic Program Changes Approved Routine Review

Public Institutions

Summary

Table 1: Public Institutions	Certificates	Associate	Baccalaureate	Graduate	Total
Deleted	9	4	5	2	20
Inactivated	9	1	5	7	22
Other Program Changes*	16	9	15	8	48
New	25	5	5	3	38
Off-Site	10	7	0	0	17
Programs Withdrawn	0	0	0	0	0

*includes options inactivated/deleted, options added, titles changed, programs combined, and coursework revised

Comments

The University of Missouri System submitted a letter in support of Harris-Stowe State University’s new Bachelor of Arts in Psychology.

The University of Missouri System suggested that Harris-Stowe State University reduce the number of credit hours in the major in their new Bachelor of Arts in History. Harris-Stowe State University submitted a revised curriculum that distinguished between major requirements, program concentrations, elective credits and institutional requirements.

The University of Missouri System commented on the proposed curriculum and duplication concerns for the University of Central Missouri’s new Bachelor of Science in Bioinformatics. The University of Central Missouri provided a response showing how bioinformatics information is integrated into their curriculum along with models from other institutions using a similar format. They distinguished their program from the University of

Missouri-Kansas City's Bachelor of Science in Biology (with a bioinformatics emphasis), and stated they had contacted UMKC to discuss the feasibility of collaboration. UCM provided an overview of future marketing and recruitment plans for the degree program. There were no additional comments.

Independent Institutions

Summary

Table 2: Independent Institutions	Certificates	Associate	Baccalaureate	Graduate	Total

Comments

None received.

Independent Institution MDHE Program Inventory Reconciliation

Missouri institutions were asked to review inconsistent and duplicate listings between the Missouri Department of Higher Education's program inventory and the Division of Workforce Development's Eligible Training Provider System prior to the launch of the new MoScores (Missouri Scorecard) web portal.

MDHE policy states that all independent institutions shall submit all new degree and certificate programs for coordinating board review and that the review of new programs submitted by independent institutions is conducted in a manner to provide that all criteria and definitions that are applicable to public institutions are also applicable to independent institutions except as explicitly provided by the rule.

Independent institutions that had missing or incorrect program records were asked to submit new program proposals through the routine review process to reconcile their program offerings with the MDHE program inventory.
