

Board of Curators Mission: Missouri S&T integrates education, research and application to create and convey knowledge that serves our state and helps solve the world's great challenges.

CBHE-Approved Mission Description (December 2023): Missouri University of Science and Technology (Missouri S&T), a campus of the University of Missouri System, is a STEM-focused research university. Missouri S&T provides education and conducts research to fulfill part of the University of Missouri's land-grant mission. Missouri S&T is designated as a highly-selective institution.

Missouri S&T fulfills its CBHE-approved mission by offering baccalaureate, master's and doctoral degrees in a wide range of engineering, computing and science disciplines. Missouri S&T also offers degrees in business, the liberal arts humanities, information science and technology, and social sciences.

Missouri S&T further fulfills its CBHE-approved mission through engagement with employers statewide, in both the public and private sectors, who are seeking well-educated and innovative employees, technical assistance, applied research solutions, and the discovery, dissemination, application, and preservation of knowledge.

Missouri S&T provides services designed specifically to meet the needs of statewide economic development (small business development, support for entrepreneurs, technical and professional services, and technology transfer), conducts basic and applied research, and collaborates with other universities in Missouri to ensure statewide access to baccalaureate-level programs in engineering.

Missouri S&T also fulfills its mission by offering services to promote and sustain economic development, small business development, and workforce development, in addition to a broad range of academic and cultural activities and events.

Every five years, Missouri University of Science and Technology will provide to the Coordinating Board, in a manner determined by the Coordinating Board, evidence of fulfilling its mission.
